

Instructional Technology Specialist The DLCS Licensure and the ITS Certificate Program

OVERVIEW

DESE-approved **Instructional Technology Specialist (ITS)** licensing program, designed for PreK-12 educators who wish to pursue a leadership role in the instructional technology field.

Our **ITS Certificate Program** is designed for PreK-12 teachers who wish to advance their pedagogical, ed tech skills, and professional growth.

We are also pleased to share that these courses incorporate all Subject Matter Knowledge (SMKs) for the **PreK-6 Digital Literacy and Computer Science license (DLCS)**!

All programs are asynchronous and meet the 21st-century requirement that ALL learners be able to access, interact with, and share information using traditional, digital, and emerging tools.

Each Course meets PDPs for renewal of MA Licensure

*...in order to better support student achievement Individual professional development plans must include at least 150 PDPs that break down as follows:

- #2. At least 15 PDPs in pedagogy (professional skills and knowledge)*
- #5. The remaining 90 required PDPs may be earned through either "elective" activities that address other educational issues and topics that improve student learning or additional content and/or pedagogy.*
